

# Archives and collection

The Carillon School Jef Denyn has an extensive archive of scores and historical manuscripts, bequests, films, personal documents, photos and press cuttings about the history of carillon art. In 1997, we transferred this archive, with the exception of the scores for carillon, to the Mechelen city archives.

The school also has an imposing library with works from the seventeenth century onwards.

## Museum collection

The museum collection features about 600 items which are exhibited in Hof van Busleyden. Due to renovations, the museum is currently not open to the public.
